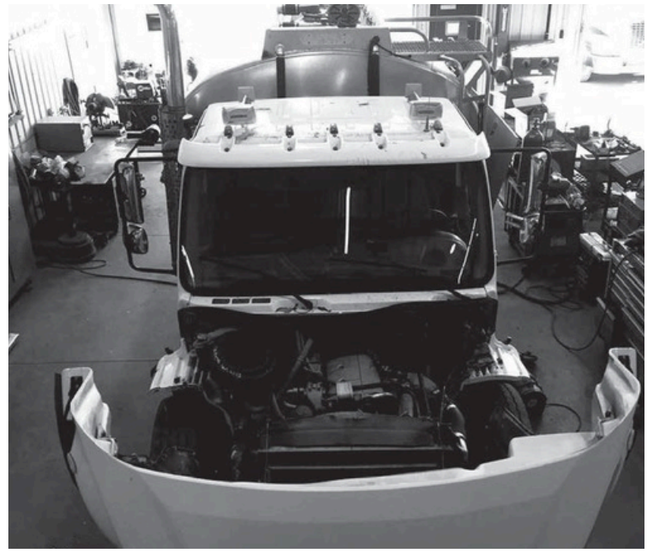
With our strong commitment to customer service and quality we provide 24/7 call out services for our heavy duty mechanical division.



TANK **RECERTIFICATION**

B620-09 » IN-HOUSE & MOBILE SERVICES

As a certified inspection facility by the Department of Transportation, Dynamic Industrial Solutions provides certified tank inspections under the B620-09 code for transportation of dangerous goods. By providing these inspections our clients have the peace of mind knowing their equipment meets/exceeds the minimum requirements set out to safely operate their businesses. Our tank inspection team is well trained in order to provide the highest quality of inspections. As a certified repair facility we are able to do all repairs necessary to ensure your equipment leaves our facility certified and in the best condition possible.

This Division also provides Mobile Tank Testing/Certification. Our team has the certification & expertise, to travel to your facility and complete yearly inspections, for a wide range of mobile tanks in the industry.
